# Bond fund flows signal shift

Money pours into emerging market debt

Risk fears hit several European countries

By Anne Wigglesworth in London

Money is continuing to pour into emerging market debt funds, according to data released by the Investment Company Institute. The funds have raised more than \$10 billion in the first half of 2015, according to the institute. The funds have raised more than \$10 billion in the first half of 2015, according to the institute.

# Japanese companies seek to take a bite of foreign growth

New analysis

Moves prompted by weak domestic economy, strong yen and low interest rates, says Lindsey Whipp

By Lindsey Whipp in London

Japanese companies are looking to expand overseas, driven by a weak domestic economy, a strong yen, and low interest rates. This move is part of a broader strategy to diversify their revenue streams and reduce their dependence on the Japanese market.

## Murdoch signals push into education

News Corp chief in digital lessons move  
Vision for learning outlined in Q3 talk

By The Associated Press

Robert Murdoch signalled that News Corp, the media group he heads, is to make a substantial new push into the education technology market, in a 10-minute speech to a Q3 analyst call on Tuesday. He said the group's new education technology division would be a "major strategic initiative" for the company. Murdoch said the group would be investing heavily in digital education technology, including the development of new content and the creation of new business models. He said the group would be investing in the development of new content and the creation of new business models. He said the group would be investing in the development of new content and the creation of new business models.

The technologies that transformed every other aspect of life can transform education, Murdoch said. He said the group would be investing in the development of new content and the creation of new business models. ## Online grocers gain ground in US

News analysis  
Doubts remain about expanding beyond cities into the suburbs, writes Alan Rappaport

The online grocery business has been a success story for the past few years, but analysts are now questioning whether it can expand beyond major cities into the suburbs. Alan Rappaport writes that while online grocery has gained significant ground in the US, it still faces challenges in expanding its reach.
